„GoSMS“: In the basic settings, the messages are sent with „GoSMS“ as the sender name

„info-sms“: You can choose this generic string as the sender name

Custom name: Create your own unique sender name (max. 11 characters) – such as „babyfun.com“

Phone number – assigned: Clients will receive their messages coming from different phone numbers from the GoSMS range

Phone number – custom: You'll get a constantly assigned one phone number from the range to use for all your messages

**Available only with a signed contract.*

Would you like to send thousands of messages each month? Drop us a note and we'll arrange a custom price offer to best suit your individual needs.

Prices in this document do not include 21 % tax. The tax does not apply to taxpaying subjects with an assigned VAT number.
